What is Living Pasts?

Utrecht Time Machine's playground!

- Goal: design and develop an innovative historical storytelling application for the city of Utrecht
- Hands-on and transdisciplinary Bachelor's course

EDUCATION

HISTORY / DATA

How does it work in practice?

A real-world (and recent!) example

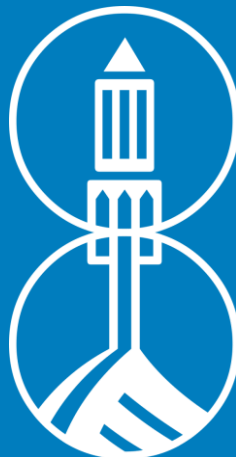

Student goal: “Escaping Zuilen”

- Educational escape room
- Tell the story of Zuilen
- Academically/historically grounded

Wim van Scharenburg
(Director of Museum van Zuilen)

Utrecht Time
Machine

*“What types of stories are
we dealing with?”*

Interdisciplinary team of
Living Pasts students
(Utrecht University)

Machine

*“Where can we find historical
sources to academically
ground our experience?”*

Interdisciplinary team of
Living Pasts students

(Utrecht University)

(10 weeks later...)

The Final Livestream

W. van Scharenburg I think that this project IS absolute useable for the museum!

W. van Scharenburg THANKS EVERYBODDY! It was great to see how your steps made a perfect product. Good listing to the stories and a beautiful game t play. (AND: to learn about Werkspoor!)

Liamor Aw, thanks Wim! And thank you for all your help 💜

Tales from the Kitchen ...

Welcome to The Taste of Time!

April 2020 by [Team Taste of Time](#)

We are team *Taste of Time*, bringing you historical recipes from Utrecht straight to your modern kitchen!

As a project for the Living Pasts course at the Utrecht University, we from the *Taste of Time* team decided that it is time to delve into the dusty, old cookbooks to discover forgotten traditional Dutch recipes. Our goal is to show how these recipes are still as delicious today as they were back in the day and show YOU how to make them! On our website you will find articles on the ancient Dutch cuisine, recipes from the olden days, and videos on how to recreate those recipes yourself. Thank you for visiting our website and enjoy our delicious recipes!

About

The Taste of Time channel + blog is formed through the course Living Pasts, provided by the University of Utrecht. Its goal is to maintain cultural heritage. This channel will broadcast old recipes in a new form. If you're interested in history and food, this is the channel for you! : [Check out the living pasts website.](#)

Living Pasts as a testing ground

- Great way for rapid prototyping
- Effective community outreach
- Practical and real-world learning experiences
- **Cherry-pick** the best ideas for the time machine

Question

How do *you* go from prototype to production?

We'd love to hear from you! (Seriously!)
